

Eugene Durov

Digital product designer with 10+ years of all-around experience in design with a development background.

For the last several years I work in fintech in B2B and B2C. I redesigned payment forms and personal accounts, launched mobile analytics and finance applications.

EXPERIENCE

Product Designer at Tinkoff Bank

AUG 2021 – Present, Saint Petersburg

Leading the creation of the Finhealth product — a new function for the mobile bank application that provides financial rating, analytics and personal advices for improving well-being. Finhealth is an innovative product in the field of fintech.

Implementing the process of UX interviews in the company and conducted more than 50 interviews.

Product Designer at YooMoney (ex. Yandex.Money)

AUG 2019 – AUG 2021, Saint Petersburg

Responsible for the full design processes of payment solutions from the first idea to launching. During my work, I redesigned projects such as the Embedded checkout form, Redirect form and Mobile SDK. Modernization of Widget (Embedded form) is the most successful project — the conversion rate increased by more than 5% and the concept was re-used in more than 8 company projects.

Launched Yandex.Kassa mobile analytics app for for merchants.

Worked with B2C on Yandex.Fines and launched a utility bills project

Product Designer at Yandex

MAY 2019 – AUG 2019, Moscow

Participated in designing several intranet tools. Fully redesigned internal video conference service VConf, which became the most important tool for Yandex internal communication

UX/UI Designer | Frontend Developer at Personal Projects

SEP 2014 – MAY 2019, Minsk

Design and frontend development with a small team. The most successful projects:

- Web aggregator of popular Instagram profiles with a subscription to them. The service was visited by more than 150 thousand users per month and made thousands of subscriptions. During the work of service, I designed three versions of it, also engaged in frontend development (JS framework, CSS and HTML);
- Instagram account management service, which served more than a thousand profiles and worked for more than three years. I was responsible for design and frontend.

UX/UI Designer at EPAM

MAY 2011 – MAR 2014, Gomel

Worked on B2B design projects, especially on Cvent — service for group hotel reservations, that provides management, email marketing, and web surveys.
